

I did have some concerns about provisions affecting deed records so that potential homeowners would know whether or not a property had been polluted and, if so, whether the problem had been remediated. Fortunately, we were able to work this out to everyone's satisfaction in the committee.

I want to thank Chairman SCHAEFER for his assistance in perfecting this legislation. I am very happy to support it today.

Mr. RICHARDSON. Mr. Speaker, I support H.R. 2967 because it reauthorizes the remediation activities of environmental damage created at uranium mill sites. Without this legislation, the current authorization for cleanup will expire on September 30, 1996.

Uranium mill tailings were created as a result of Federal Government activities to secure supplies of uranium for the Manhattan project—a top-secret activity designed to build the world's first nuclear weapon—located in my congressional district in New Mexico. This development led to continued production of nuclear weapons and the use of nuclear energy production for electric generation.

The milling process separates high-grade uranium from low-grade surrounding rock. These high volume sand-like leftovers emit low levels of radioactivity and consequently need to be disposed of properly by the Department of Energy.

The original Uranium Mill Tailings Control Act of 1978 provided for the cleanup of 22 title I sites—abandoned and inactive sites which were used primarily for Federal purposes.

Due to the significant volume of tailings to be remediated and more strict cleanup standards imposed after the 1978 act, more time and additional funds are necessary to complete the Department of Energy's activities.

H.R. 2967 will allow the Department an additional 2 years to safely complete the cleanup process. This is a good piece of legislation which will address public health and environmental concerns in many western States. I urge you to vote in favor of H.R. 2967.

Mr. ALLARD. Mr. Speaker, I rise in strong support of H.R. 2967, a bill to extend the authorization of the Uranium Mill Tailings Radiation Control Act [UMTRCA] through 1998.

This bill is sound environmental cleanup legislation, and it marks the final chapter of the cold war. The mill tailings date back to the Manhattan project of 1942 and the national security purchases of uranium by the Federal Government from 1947 to 1970. During this period, there were no environmental cleanup standards for mill sites, nor were any standards enacted into law until the 1970's. The United States and the free world benefited from this program; therefore, it is just that the Federal Government pay for its share of cleanup costs.

Of particular note is the environmental reclamation project at Uravan on Colorado's western slope. The mill tailings date back to Madam Curie's radium research at the turn of the century. In 1942, as part of the war effort, the Manhattan Army Engineering District contracted with UMETCO Minerals Corp. for uranium produced at the site.

Today, UMETCO is in the process of restoring the environment to its former natural beauty. This has been a true success story for the Department of Energy, State of Colorado, local government entities, and UMETCO. The

accomplishments of this project clearly demonstrate that the public and private sector can work together to preserve the environment.

In closing, I would also like to point out that the UMTRCA legislation is fiscally responsible. In Colorado, \$100,000,000 will be saved by keeping the Cheney disposal facility near Grand Junction open so that the mill tailings that are uncovered in future road and nearby utility repair work can be disposed of in the future.

Mr. Speaker, this piece of legislation is effective in preserving the environment and should be promptly enacted into law.

I commend my good friend from Colorado [Mr. SCHAEFER] on this sound environmental legislation which takes into account the needs of Colorado communities and the budgetary constraints of the Federal Government.

Mr. Speaker, I yield back the balance of my time.

Mr. SCHAEFER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. COMBEST). The question is on the motion offered by the gentleman from Colorado [Mr. SCHAEFER] that the House suspend the rules and pass the bill, H.R. 2967, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SCHAEFER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 2967, as amended.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Colorado?

There was no objection.
